Rosen Kretz

Rosen Kretz – Quality and Sustainability for Over 50 Years

For more than half a century, our family-run business has been dedicated to cultivating premium-quality cut roses. Grown under optimal conditions, our roses are available from March to November in various types and forms – including classic roses, spray roses, and specialty varieties. This makes them the perfect choice for florists, event planners, and wholesale buyers who value top-tier quality for weddings, corporate events, and other special occasions.

Sustainability is at the heart of our philosophy. We rely on beneficial insects for plant protection and heat our greenhouses using renewable resources. Additionally, our in-house fertilizer processing system, eco-friendly paper packaging, and modern solar panels contribute to a resource-efficient and environmentally friendly production process.

To further reduce energy consumption, we deliberately pause production during the winter months.

Benefit from our decades of experience and commitment to sustainability – for roses of the highest quality and with a clear conscience.
